Bellary Drainage Scheme - Extension to by-laws. In G.O. No. 3735 P.H., dated 14th October 1939, the Government -- negatived the proposal for constructing additional drains in the area covered by the Bullepet Drainage Scheme and to finance it on the half grant basis. Again in their Memorandum No. 40292-1. E2.P.H., dated 13th October 1939, in reply to a letter from the Municipal Commissioner Bellary (No.1193/39-E.2., dated 18th September 1939) the Government informed him that it would not be possible for them to give any loan or grant towards the cost of the scheme referred to therein for sometime to come. In the same memorandum, the Government however also told ~~xxx~~ the Municipal Commissioner that if the Municipal Council was prepared to meet the entire cost of the scheme from its own funds and submit a resolution to that effect, they would consider the question of sanctioning the investigation and also of permitting the Council to execute the scheme piecemeal. Further to this, nothing is known to this office. It is therefore for the Government to decide whether a loan or grant or both could be granted to the Municipality for the scheme.

The original drainage scheme for the Bellary Mfg provided for the construction of drains in the Bruce pet area. In August 1939, the Bellary Mfg. requested that the savings effected in the working of the above scheme may be utilised for providing drains in the lanes and streets not provided for in that scheme. The Council was informed that no financial help could be given for the work & that it may meet the expenditure from its own funds. The Council also submitted another proposal for the construction of drains not provided in the original scheme for the Brucepet area and applied for a loan of Rs. 1,00,000 and a grant from an equal amount. This request was also not complied with. Conditions have not changed since then, to warrant
